

dNTP Mix (10mM)

User Guide

Catalog Number	Pack Size
ZT-DNTP-1	1ML
ZT-DNTP-5	1ML X 5

Content and Storage Condition

Content	Shipping Condition	Storage Condition
dNTP Mix (10mM each)	-20°C	-20°C

Features

Concentration: 10mM Each

Application: Molecular Biology

Grade: Molecular Biology

Appearance: Colorless

Classification: General Reagents

Product Description

dNTP Mix is aqueous solutions at pH 7.0 containing dATP, dCTP, dGTP and dTTP, each at a final concentration of 10mM. dNTP Mix is ready-to-use solutions designed to save time and to provide higher reproducibility in PCR and other applications. The Mix offers the possibility to reduce the number of pipetting steps and the risk of reaction set-up errors.

Applications

For direct use in PCR, long PCR, RT-PCR, cDNA synthesis, primer extension, DNA sequencing, and DNA labeling.

Warning

Do not preserve the product when the package is damaged.
